alice-corona@riseup.net

@alice_corona

After a degree in History (University of Siena, Italy) and a MA in Communication and Information Sciences (Tilburg University, The Netherlands), I have been practicing my craft working in data journalism and data literacy trainings since 2014: first as a freelancer, then as lead data journalist at the Amsterdam-based startup Silk until 2016, then again as a freelancer.

I am now a freelancer offering consultancy and teaching in the field of data communication, visualization and processing.

From 2018 I am project leader at Batjo, a Google DNI-funded project promoting the use of data physicalization among journalists.

I love to work with activists & no-profits. And to solve problems with Python.

Skills

Scraping and data collection

Comfortable in: assessing best structure for a datasets based on goals, working with IMPORTXML, IMPORTHTML and IMPORTDATA to get data into Google Sheets, geocoding, using Python for XPath-based scraping (libraries: lxml, requests).

Data cleaning and processing

Comfortable in: assessing what data cleaning operations are needed, using Google Sheets advanced functions for wrangling and analysing data, Open Refine and GREL, processing geodata with QGIS, RegEx and Python for data cleaning and analysis (preferred library: Pandas).

Data visualization and communication

Comfortable in: using most online tools for data visualization (preferred: Datawrapper, RAW GRAPHS, Flourish, CARTO. Would love to try Data Illustrator), crafting custom static graphics with Inkscape, building network graphs with Gephi, getting creative with Python's Jupyter Notebooks (preferred libraries: Matplotlib and Seaborn, Bokeh, geopandas), learning Javascript for dataviz (Chart.js and Leaflet.js), composing maps with QGIS.

Soft Skills

I hate the term "soft skills" but I'll use it to sum up a series of unquantifiable skills which I believe are at the core of my work style. I feel greatly in debt towards my Humanities Studies background (Latin, Ancient Greek, Philosophy and History), which equipped me with the skills I am most proud of: I can research, analyze and synthetize complex topics, dissect and build strong arguments, organize my work, establish a collaborative settings in team environments and manage small team projects with care and listening.

Current Work Experience

FOUNDER AND PROJECT LEADER · Mar. 2018 - Present · Venice, Italy
